

Response to Questions about Final Evaluation of MyJustice Proposal

Date 16/09/2019

Q: To what extent should the evaluation cover informal justice actors and institutions (village level/traditional/community based justice approaches etc.)?

A: Informal justice is one of the four key result areas of MyJustice and it will be required to look into this component as much as other areas: awareness, legal aid, policy engagement. It will need interviewing MyJustice implementing partners who have trained ward/village tract administrators (W/VTAs) and possibly interviewing the W/VTAs themselves in the field which will require traveling to Mon or Kayin State.

Q: We are preparing the proposal and find it challenging to fill in Annex 3 - Pricing Approach. The template seems appropriate for a project, not for a evaluation proposal. With previous My Justice assignments we have used another format which included a tab 'Rate Card & Resources', would it be possible to use that format for this proposal?

A: Yes. It has been replaced as requested.
